Sean Lane
Clean Out Clear Out, LLC

Sean Lane and his company of Clean Up Clear Out in Michigan provided a valuable service to my fiduciary company in Arizona. My company was the court-appointed executor of a Decedent's Estate. Mr. Lane and his company were enlisted to secure and provide a cleanup of a residence, which happened to be a hoarder situation. He was able to fully administer the tangible property and properly identifying items of value, donations, and trash. He was able to have the property fully cleaned out within a few short weeks and we were able to have it placed on the market and sold a short time later. The short time frame Mr. Lane fully administered the tangible property was invaluable to our administration of the Estate and to the satisfaction of the beneficiaries. Not only did he accomplish this monumental task for us thoroughly but he did it in an efficient manner. In addition, we became aware the Decedent had a safe deposit box in Michigan with unknown contents. Under our request, Mr. Lane went to the bank and secured the contents of the safe deposit box. The safe deposit box contained approximately 300 gold coins and jewelry. Mr. Lane had complete integrity and ethical standards of practice such that he inventoried and secured the valuables. This kind of integrity and ethics is invaluable to a customer when valuables and discretion is needed. We appreciate his integrities and were extremely satisfied with the level of customer service, communication, and ethics provided by Mr. Lane and his company.

Sincerely,

RELIANCE FIDUCIARY, LLC
